

Why Choose CE21 as Your Continuing Legal Education Platform

The needs around delivering continued education and membership management can change radically from one organization to the next. CE21 has been created from the ground up to be incredibly adjustable and flexible. This allows organizations to spend less time dwelling on “the how” and more time serving their clientele by reliably delivering high-quality CLE content.

State-of-the-Art Interface

- Built as a complete, cloud-based CLE registration, content delivery, and automated certification system, users can easily search and purchase courses (live in-person & online) and physical products in one catalog that is customized and branded for your organization
- Built with a mobile first approach, our mobile app provides users access to your content anytime, anywhere with options to download courses, watch/listen offline, and automatically upload completion information once internet access is restored
- Complies with accreditation requirements in all MCLE jurisdictions

Continuing Education Management

- Credit Tracker and Transcripts allow users to track and report CLE credits easily.
- Users can upload CLE certificates and credits from other CLE providers and download transcripts that can be submitted to MCLE Boards

e-Commerce & Sales Capability

- Credit card vaulting and recurring payments allow for effortless fundraising and payment processing
- Implement bundles, subscriptions, discounts, gift cards, and promotional pricing
- Allow Professional Development managers to register multiple lawyers in one transaction with regular or tiered pricing
- Manage and track sales data with an administrator-level dashboard, providing access to our robust-reporting functionality

Bridge Live and Virtual Events

- Record and stream your in-person events, host events that incorporate in-person and virtual components, and host a fully virtual conference, all with robust accreditation features
- Blend previously created content with live webinars and webcasts into one curriculum, creating a classroom environment
- Provide peer-to-peer communication by using forums and live chats

Bridge Live and Virtual Events

- Record and stream your in-person events, host events that incorporate in-person and virtual components, and host a fully virtual conference, all with robust accreditation features
- Blend previously created content with live webinars and webcasts into one curriculum, creating a classroom environment
- Provide peer-to-peer communication by using forums and live chats

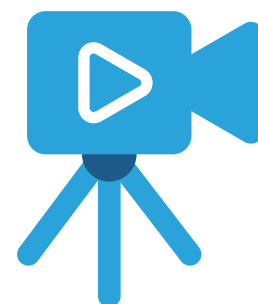

Outstanding Client & Customer Support Services

- Make it simple for your users to reach our customer support through multiple mediums, including phone, email, and an integrated ticketing system
- Supplement your support staff with CE21's highly-trained employees who know all the ins and outs of the CE21 Manager at no additional cost!

Easy Integration with Other Technology

- Integrate with third party technology through access to our API functionality
- Provide your users with a single sign-on experience from your existing website to your customized CE21 catalog and Viewer

CE21 is committed to removing barriers allowing any size organization to utilize our platform - including startup or implementation fees. Your success will always translate into our success as we work to find the RIGHT pricing structure for each organization. We're ready to put our extensive expertise to work for your organization as you serve your learners' evolving continuing education needs.
